## LIMERICK

Rhebogue Hill's second phase development is set to provide a great opportunity to prospective purchasers to acquire a family home in one of Limerick's most central residential locations. This cul de sac development contains a mix of three bedroomed semi-detached house types offering a choice of options to either purchase your first home or trade up to a larger house.

Rhebogue Hill benefits from an ideal location mid-way between the City Centre and the University of Limerick. Local facilities within walking distance include primary and secondary schools together with the Parkway Shopping Centre, St John's Hospital and the Absolute Hotel. Amenities in easy reach include Grove Island Leisure Centre/Swimming Pool, Canal Bank Walk, O'Brien Public Park as well as local GAA and rugby clubs.

Builders McCarthy & Woulfe Ltd have a long and distinguished history in the construction and house building industry and they anticipate that each home in Rhebogue Hill will be finished to exceptional standards that combine solid traditional construction methods with new energy saving technology.
