LOVE SPACE TO UNWIND LIVE TO SHAPE THAT SPACE

The interior of every **Cornamaddy Court** home is built with you in mind. Whatever you want — space for the kids to play, a place to work from or more room to entertain friends, each home offers all the flexibility you need.

The comfort you want, how you want it.

Space and light help you to bring the plans for your home to life. Our designers factor real furniture sizes into each home's layout to make furnishing your home to your taste a far easier process.

For illustrative purposes only.

A-Rated Specs and Standards

If it isn't A-rated, then it isn't a Glenveagh home. Each property of ours performs at the highest possible level on the BER efficiency scale — exhibiting the highest standards of insulation and airtightness.

LOVE THE FUTURE OF COMFORT LIVE WITH EFFICIENT TECHNOLOGIES

The efficiency of a home isn't something that's just felt in your back pocket, but through the comfort and warmth you experience every day. All Glenveagh homes are built using modern construction techniques and technology that benefits you, the owner.

Our homes are built to be energy efficient with a minimum A rating on the BER scale with the highest standards of insulation and airtightness in all our properties.

What do homes of the future look like?

We're building the homes of tomorrow, today. We incorporate sustainable and renewable technology to reduce the carbon footprint of your home, not only in how it's built, but in how you experience it from the day you move in. Developments in solar technology will mean that your home can generate its own energy, and in the future even contribute back to the national grid!

Why is an airtight home a better choice?

Efficiency and sustainability aren't simply about generating heat or the energy you use in your home; it's about retaining it and keeping it in. Your home is completely wrapped using the very latest underfloor, wall and attic insulation technology, making it airtight so there's no air leakage. Glenveagh homes use sophisticated ventilation systems to remove condensation and contaminants to ensure a better quality of air throughout.

Experience the Future of Home Comfort

Step into a smarter, cleaner, and more efficient way to live with our fully electric home heating system. Powered by solar energy and supported by advanced battery storage, this system delivers consistent comfort, lower energy bills, and true energy independence. Designed for sustainability and performance, it includes ceiling-mounted radiant/infrared heat panels in ground-floor living areas, an electric hot water system, PV solar panels, and a 5kWh battery with inverter, all working together to create a greener, more comfortable home.

Pre-wiring for electric vehicles

Even if your current car isn't an electric or hybrid model, you may decide to switch in the future. That's why provisions for the installation of an electric vehicle charge point are made where applicable, so your home is ready when you make the move to electric driving.

ROUTES TO PURCHASE

New Glenveagh homes are more affordable and achievable with the financial supports available to first-time buyers.

HELP-to-BUY SCHEME

The Help-to-Buy SCHEME is designed to help first-time buyers overcome the hurdle of getting your deposit together.

The Help-to-Buy SCHEME is a tax rebate scheme for first-time homebuyers, provided by the Irish Government. With it, you can get 10% of the purchase price or up to a maximum of €30,000 towards your deposit for a new-build house or apartment. Help-to-Buy cannot be used to purchase previously owned or second-hand homes. See how the Help-to-Buy SCHEME can make your new Glenveagh home more achievable, visit glenveagh.ie or revenue.ie

FIRST HOME SCHEME

Glenveagh supports the First Home Scheme, which is funded by the Government of Ireland in partnership with participating lenders.

If you qualify and avail of the First Home Scheme, the State and participating lenders will provide up to 30% of the market value of your new home, in return for the same percentage share in equity of the property. It allows eligible first-time buyers, bridge the gap between the deposit, mortgage and the purchase price of a newly built home. The amount of funding that you qualify for depends on where the new home is located and whether it's a house or an apartment. For more information about the First Home Scheme visit glenveagh.ie or firsthomescheme.ie

Unlike a mortgage or personal loan, there is no charge for the equity share in your home with the First Home Scheme for the first 5 years. From year 6, if the equity share is still in place, a service charge will apply. See firsthomescheme.ie for more.

HERE'S HOW THE SCHEMES COULD WORK FOR YOU

With a combined salary of €63,000 and the Help-to-Buy Scheme and First Home Schemes, you could get a new Glenveagh home worth €360,000.

Property price	€360,000
Household income	€63,000
Mortgage approval	€252,000
Deposit	€6,000
Help-to-Buy	€30,000
First Home Scheme	€72,000 (=20% equity share)
Mortgage Monthly Repayments	€1,041 (based on 35 years and at 3.5% interest rate)

Unlike a mortgage or personal loan, there is no charge for the equity share in your home with the First Home Scheme for the first 5 years. From year 6, if the equity share is still in place, a service charge will apply. See firsthomescheme.ie for more.
