## LOCATION

The property benefits from an excellent position within Stillorgan Industrial Park, a well established strategic suburban commercial location in the Stillorgan/Sandyford area just 10km south of Dublin city centre.

Stillorgan Industrial Park benefits from excellent connectivity given its proximity to key transport infrastructure. The N11 and Junction 14 on the M50 are minutes away. Stillorgan and Sandyford Green Luas stops and other public transport facilities are within walking distance of the property. In addition to traditional industrial and warehouse users, other end users in the park include motor showrooms, leisure operators, builder providers, tile & bathroom showrooms and home & garden retail warehouses. The location of the industrial park attracts this variety of users given its close proximity to residential neighbourhoods and Sandyford Business Park which is a mixed-use area containing a hospital, hotel, offices, supermarkets, retail stores, food outlets, leisure facilities, retail warehouses and industrial units.

## DESCRIPTION

13-14 Holly Avenue is a modern, two storey detached commercial property which was recently used for Molecular Diagnostic Product Development and Manufacturing. The high spec building extends to approx. 2,817 sq. m (30,322 sq. ft) GEA on a site of approx. 0.37 ha (0.91 acre). The property benefits from generous car parking with 27 spaces provided to the front, side and rear. Loading access is provided via two no. ground level roller shutter doors.

Internally the property is fully fitted to provide modern accommodation with reception, boardroom, canteen, locker rooms, open plan and cellular offices along with high spec production and manufacturing facilities.

Extensively equipped premises suitable for R&D or manufacturing of pharmaceutical or medical diagnostics products. Recently used for Molecular Diagnostic Product Development and Manufacturing, this facility has in the past been inspected by US FDA on multiple occasions.

Fully equipped with three ISO Class 8 cleanrooms, extensive pharma-grade GMP manufacturing areas, Class 3 Biological safety lab, five cold rooms (2-8 degrees), freeze dryer services, warehouse and quality control lab, 140kW chilled water supply, 515kW gas fired boiler, purified water (200ltr/hr), 3 compressed air systems and sprinkler system.

The facility has a 210KVAb electrical supply connection with an on-site substation for potential MIC increase, and a 316kva standby generator. There is a Trend 963 building management system controlling all plant /utility metering and ACT door access control throughout.

An assignable Building Survey has been undertaken by the Vendors and is available on request.

The layout is very flexible and can accommodate the wide variety of users the location attracts. The property benefits from multiple entrances enabling convenient division to self contained units of varying sizes if desired.
