ST Josephs

CLONSILLA

Following on a long tradition of establishing marquee developments in the Dublin 15 area, Castlethorn are proud to bring their latest creation St Josephs Clonsilla to the market.

Comprising a varying mix of 2, 3 and 4 bed homes and featuring a mixture of elegant red brick and render exteriors, the homes provide a variety of internal designs, all of which are built with requirements necessary for todays modern living in mind.

Designed by DDA Architects, all homes at St Josephs have thoughtfully laid out interiors, including spacious living rooms, fully fitted kitchens with integrated appliances, while upstairs well proportioned bedrooms with all 3 and 4 bedroom houses benefiting from ensuites. In addition, all homes will have an A3 BER energy rating ensuring that the houses will benefit from reduced energy bills and increased comfort.

Superbly located in Clonsilla, St Josephs is within easy reach of many schools, parks, shops and transport infrastructure including Clonsilla train station that adjoins the development.

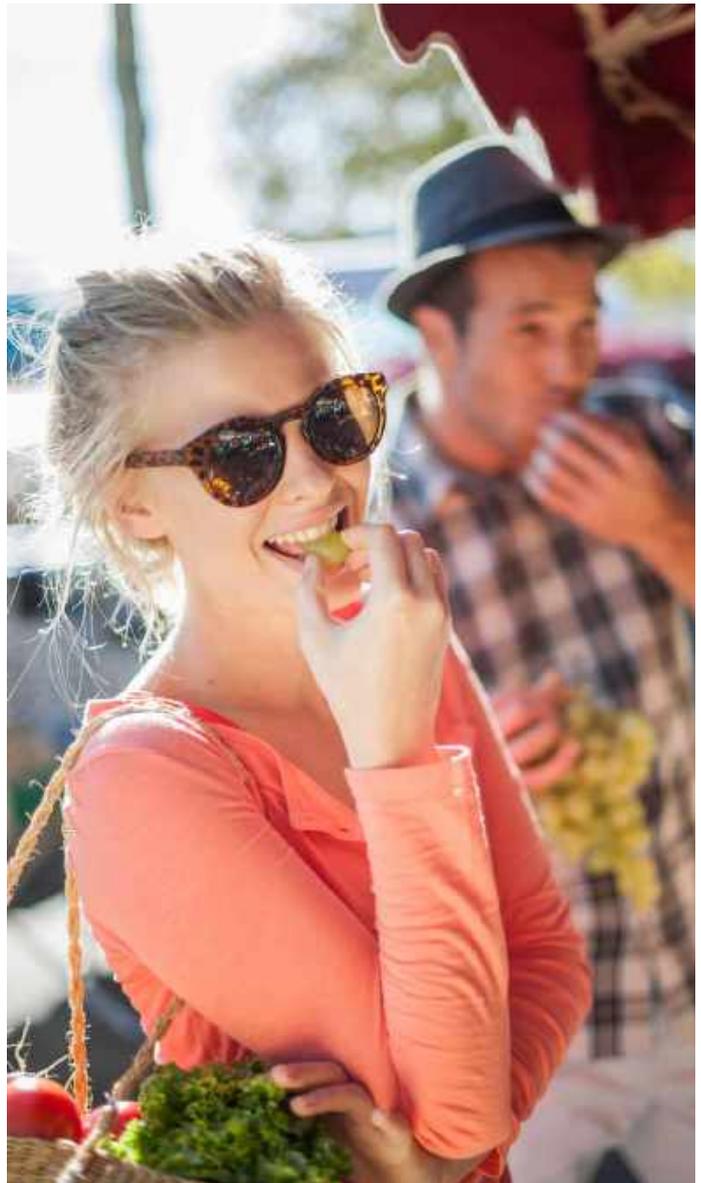

EXCELLENT AMENITIES RIGHT ON YOUR **DOORSTEP**

Insulation

- ◆ All of our houses are constructed with superior levels of insulation and they are carefully designed and detailed to reduce heat loss through floors, walls and roofs.

Air Source Heat Pumps

- ◆ Environmentally friendly air to water heat pumps are externally mounted units, located in rear patio, that convert energy from outdoor air to heat via an internal exchanger.

Windows

- ◆ Houses at St. Josephs are fitted with high performance windows which are significantly more efficient than traditional double glazing.

Mechanical Extract Ventilation

- ◆ The ventilation system in the dwelling is a 'demand controlled system' which uses a centralised low energy fan located in the attic to extract air from bathrooms, en-suites, utility rooms and kitchens.
- ◆ The system automatically responds to the moisture levels in the dwelling, increasing and decreasing the amount of air being extracted from the house to suit the home owner's activities.
- ◆ Fresh air is introduced to the living areas and bedrooms via specially designed grills in the walls which also respond to moisture levels in the house and ensure that the right amount of air is being introduced at all times. The grills are also designed to minimise the effects of wind and as a result, minimise cold draughts in living areas and bedrooms.
