# WAREHOUSE SPECIFICATION

- The vacant properties have undergone a programme of refurbishment to provide incoming occupiers with a clean, bright and attractive working space
- The warehouse walls and floors have been recently painted, in addition to the installation of new automated roller shutter doors. New high output energy efficient lighting has also been installed within the properties
- The units consist of a concrete portal frame construction with a mixture of metal deck / cement fibre roof coverings. All units benefit from translucent roof panels allowing for natural light to enter the premises

- Internally, there are full height infill concrete block walls with the perimeter of the property comprising a red brick façade to the front elevation and a blended block wall / profile metal cladding finish to the side and rear elevations
- Each unit benefits from a minimum internal eaves height of approximately 5.0m and a single grade level loading door positioned to the front elevation of each property, with a separate pedestrian entrance door
- The properties also benefit from a generous loading / forecourt space to the front of each unit
