KILMARTIN GROVE

LOVE SPACE TO UNWIND LIVE TO SHAPE THAT SPACE

The interior of every Kilmartin Grove home is built with you in mind. Whether you want space for the kids to play, a place to work from or more room to entertain friends, each home offers all the flexibility you will need.

The comfort you want, how you want it

Space and light help you to bring the plans for your home to life. Our designers factor in real furniture sizes into each home's layout to make furnishing your home to your taste a far easier process.

A-Rated Specs and Standards

If it isn't A-rated, then it isn't a Glenveagh home. Each property of ours performs at the highest possible level on the BER efficiency scale — exhibiting the highest standards of insulation and airtightness.

LOVE THE FUTURE OF COMFORT LIVE WITH EFFICIENT TECHNOLOGIES

The efficiency of a home isn't something that's just felt in your back pocket, but through the comfort and warmth you experience every day. All Glenveagh homes are built using modern construction techniques and technology that benefits you, the owner.

Our homes are built to be energy efficient to a minimum A-rating on the BER scale, with the highest standards of insulation and airtightness in all our properties.

What do homes of the future look like?

We're building the homes of tomorrow, today. We incorporate sustainable and renewable technology to reduce the carbon footprint of your home, not only in how it's built, but in how you experience it from the day you move in. Developments in solar technology will mean that your home can generate its own energy, and in the future even contribute back to the national grid!

Thermal comfort

Efficiency and sustainability isn't simply about generating heat or the energy you use in your home; it's about retaining it and keeping it in. Your home is completely wrapped using the very latest underfloor, wall and attic insulation technology, making it perform thermally to the highest standards. Glenveagh homes are also designed to the highest possible standards in terms of airtightness and indoor air quality through carefully installed impermeable membranes and carefully designed ventilation systems.

How a heat pump works for your home

A heat pump costs a lot less to run than gas or oil, and is a far more efficient way to heat a home.

A heat pump system draws heat from different sources: air, water or the ground. The heat generated is then distributed throughout the home, and because your home is airtight and uses better insulation it takes less energy to create a comfortable space.

Pre-wiring for electric vehicles

Even if your current car isn't an electric or hybrid model, you may decide to switch in the future. That's why provisions for the installation of an electric vehicle charge point are made where applicable, so your home is ready when you make the move to electric driving.

Solar PV panels make a big difference

The latest solar panel technology can make a big difference to your home. Not simply in terms of sustainability but in cost savings too. By capturing natural light from the sun, photovoltaic panels on the roof of your home offer an environmentally friendly way to power your TV, kettle or toaster or Electric Vehicle!

ROUTES TO PURCHASE

New Glenveagh homes are more affordable and achievable with the financial supports available to first-time buyers.

HELP-TO-BUY SCHEME

The Help-To-Buy scheme is designed to help first-time buyers overcome the hurdle of getting their deposit together. The Help to Buy is a tax rebate scheme tailored to first-time buyers that will help you cover the deposit needed for a newly built house or apartment. The amount that you can claim is up to €30,000 or 10% of the property value (whichever is less) and depends on how much Income Tax and Deposit Interest Retention Tax (DIRT) you have paid over the last 4 years. Unfortunately, Help to Buy cannot be used to purchase previously owned or second-hand homes.

Help-to-Buy Scheme eligibility criteria

- You must be tax-compliant.
- You must take out a mortgage of at least 70% of the property value.
- You must live in the property as your main home for at least 5 years.
- The property value must be €500,000 or less.
- Only newly constructed or self-built homes are applicable.

FIRST HOME SCHEME

Glenveagh support the First Home Scheme, which is funded by the Government of Ireland in partnership with participating lenders. If you qualify and avail of the First Home Scheme, the State and participating lenders will provide up to 30% of the market value of your new home, in return for the same percentage share in equity of the property (this is reduced to 20% if you are also availing of the Help to Buy scheme). It allows eligible first-time buyers to bridge the gap between the deposit, mortgage, and the purchase price of a newly built home. The amount of funding that you qualify for depends on where the new home is located and whether it's a house or an apartment.

First Home scheme eligibility criteria

- You need to have mortgage approval from a lender participating in the scheme.
- You must borrow the maximum amount available to you (4 times your gross annual income)
- You shouldn't be taking the assistance of a Macro Prudential Exception from the lender.
- You must have a minimum deposit of 10% of the property purchase price.
- Similarly to the Help to Buy scheme, only newly built houses or apartments are applicable (with the exception of rented properties that are being put on the market).

Unlike a mortgage or personal loan, there is no charge for the equity share in your home with the First Home Scheme for the first 5 years. From year 6, if the equity share is still in place, a service charge will apply. See [firsthomescheme.ie](https://www.firsthomescheme.ie) for more.

HERE'S HOW THE SCHEMES COULD WORK FOR YOU

With a combined salary of €74,375 and the Help-To-Buy scheme and First Home Schemes, you could get a new Glenveagh home worth €425,000.

Property price	€425,000
Household income	€74,375
Mortgage approval	€297,500
Deposit	€12,500
Help-to-Buy	€30,000
First Home Scheme	€85,000 (=20% equity share)
Mortgage Monthly Repayments	€1,317 (based on 35 years and at 4% interest rate)
