LOVE THE FUTURE OF COMFORT LIVE WITH EFFICIENT TECHNOLOGIES

The efficiency of a home isn't something that's just felt in your back pocket, but through the comfort and warmth you experience every day. All Glenveagh homes are built using modern construction techniques and technology that benefits you, the owner.

Our homes are built to be energy efficient to a minimum A-rating on the BER scale, with the highest standards of insulation and airtightness in all our properties.

For illustrative purposes.

What do homes of the future look like?

We're building the homes of tomorrow, today. We incorporate sustainable and renewable technology to reduce the carbon footprint of your home, not only in how it's built, but in how you experience it from the day you move in. Developments in solar technology will mean that your home can generate its own energy, and in the future even contribute back to the national grid!

Why is an airtight home a better choice?

Efficiency and sustainability aren't simply about generating heat or the energy you use in your home; it's about retaining it and keeping it in. Your home is completely wrapped using the very latest underfloor, wall and attic insulation technology, making it airtight so there's no air leakage. Glenveagh homes use sophisticated ventilation systems to remove condensation and contaminants to ensure a better quality of air throughout

How a heat pump works for your home

A heat pump costs a lot less to run than gas or oil, and is a far more efficient way to heat a home.

A heat pump system draws heat from different sources: air, water or the ground. The heat generated is then distributed throughout the home, and because your home is airtight and uses better insulation it takes less energy to create a comfortable space.

Pre-wiring for electric vehicles

Even if your current car isn't an electric or hybrid model, you may decide to switch in the future. That's why provisions for the installation of an electric vehicle charge point are made where applicable, so your home is ready when you make the move to electric driving.

ROUTES TO PURCHASE

New Glenveagh homes are more affordable and achievable with the financial supports available to first-time buyers.

HELP TO BUY SCHEME

The Help To Buy scheme is designed to help first-time buyers overcome the hurdle of getting your deposit together.

The Help To Buy scheme is a tax rebate scheme for first-time homebuyers, provided by the Irish Government. With it, you can get 10% of the purchase price or up to a maximum of €30,000 towards your deposit for a new-build house or apartment. Help to Buy cannot be used to purchase previously owned or second-hand homes. See how the Help To Buy Scheme can make your new Glenveagh home more achievable, visit glenveagh.ie or revenue.ie

FIRST HOME SCHEME

Glenveagh supports the First Home Scheme, which is funded by the Government of Ireland in partnership with participating lenders.

If you qualify and avail of the First Home Scheme, the State and participating lenders will provide up to 30% of the market value of your new home, in return for the same percentage share in equity of the property. It allows eligible first-time buyers, bridge the gap between the deposit, mortgage and the purchase price of a new build home. The amount of funding that you qualify for depends on where the new home is located and whether it's a house or an apartment. For more information about the First Home Scheme visit glenveagh.ie or firsthomescheme.ie. Unlike a mortgage or personal loan, there is no charge for the equity share in your home with the First Home Scheme for the first 5 years. From year 6, if the equity share is still in place, a service charge will apply. See firsthomescheme.ie for more.

HERE'S HOW THE SCHEMES COULD WORK FOR YOU

With a combined salary of €74,375 and the Help To Buy scheme and First Home Schemes, you could get a new Glenveagh home worth €425,000.

Property price	€425,000
Household income	€74,375
Mortgage approval	€297,500

To the right of the beach is a steep, grassy dune covered in dense green vegetation.
