

P18/29 –

- 1a. The proposed dwelling when completed shall be occupied as the place of residence of the applicant, members of the applicant's immediate family or their heirs and shall remain so occupied for a minimum period of 7 years thereafter.
 - b. Before development commences, the applicant shall enter into an agreement with the Planning Authority, pursuant to Section 47 of the Planning and Development Act 2000, providing for the terms of the occupancy requirement.
 - c. Within 2 months of the occupation of the proposed dwelling, the applicant shall submit to the Planning Authority, a written statement of confirmation of the first occupation of the dwelling in accordance with paragraph (a) and the date of such occupation.
 - d. This condition shall not affect the sale of the dwelling by a mortgagee in possession or by any person deriving title from a sale.
-
- 2a. The developer shall pay to Monaghan County Council a sum of €1040 in accordance with the General Development Contribution Scheme 2013-2019 (as revised) made by the Council under Section 48 of the Planning and Development Act 2000 (as amended), towards expenditure incurred or proposed to be incurred by the Council in the provision of community, recreation and amenity public infrastructure and facilities in the area.
 - b. The sum attached to this condition shall be revised from the date of the grant of planning permission to the value pertaining at the time of payment in accordance with the Wholesale Price Index for Building and Construction (Materials and Wages).
 - c. No works shall commence until payment of the development contribution is made in full, or until Monaghan County Council has agreed in writing to a schedule of phased payments of the sum.
-
- 3a. Only that applicable portion of the roadside hedgerow, which must be lowered or uprooted to provide adequate sight distances, shall be removed.
 - b. Only that applicable portion of mature trees and hedgerow within the site, which must be removed to facilitate the development footprint, shall be removed.
 - c. Remaining mature trees and hedgerow defining and within the site boundary shall be permanently retained in this development. They shall also be reinforced with additional planting as per the submitted landscaping proposal and protected from damage at all times, particularly during building operations.
 - d. Notwithstanding the submitted landscaping proposal, the new site and roadside boundaries shall be planted with native hedgerow species so as to ultimately form naturalised hedgerows similar to existing hedgerows in the vicinity. Predominant species shall be whitethorn, with blackthorn, hazel and holly also included. Planting shall be in a double staggered row with 8 2-3 year old plants per metre; 250mm apart, with 300mm between rows.
 - e. Hedgerow planting, as required, shall be supplemented as per the submitted landscaping proposal with native tree species at irregular intervals. Species shall include ash, oak, sycamore and beech.
 - f. Planting as required shall be carried out in the first planting season following commencement of building operations and shall be permanently retained thereafter. Any plant which fails in the first planting season shall be replaced. Trees shall be allowed to mature and shall not be topped when trimming hedgerows.
 - g. Any boundary fencing shall be of stained wood.
-
4. Facilitating cut and/or fill shall be graded to a natural contour to reflect the existing topography of the area and the floor level of the dwelling house shall be a maximum of 250mm above ground level at the front building line.

- 5a. The proposed waste water treatment system shall meet the requirements of I.S. EN 12566-3:2005 and shall be installed in accordance with the design and specification of the manufacturer.
- b. The installation shall be supervised and certified by a competent person and a copy of the certificate to be submitted to the Planning Authority prior to occupancy of the dwelling.
- c. No part of proposed waste water treatment system shall be located within a minimum of 10m of the dwelling or 3m of the adjoining boundary.
- d. Effluent from the proposed wastewater treatment system shall be disposed of by means of a sand polishing filter constructed in accordance with the requirements as set out in the Environmental Protection Agency Code of Practice "Wastewater Treatment and Disposal Systems Serving Single Houses." (p.e. ≤ 10).
- e. The construction of the sand polishing filter shall be supervised and certified by a competent person and a copy of the certificate shall be submitted to the Planning Authority prior to occupancy of the dwelling.
- f. No part of the sand polishing filter shall radiate within 12m of the dwelling-house, 10m of any watercourse or 3m of the adjoining boundary.
- g. Applicant to enter into a maintenance contract with the supplier of the wastewater treatment system and a copy of same to be submitted to the Planning Authority for approval within two months of the date of occupation of the dwelling.
A copy of each maintenance report shall be submitted to the Planning Authority.
- 6a. Prior to any other works commencing, visibility splays of 50m, measured to the nearside road edge in each direction, shall be provided from a point in the centre of the site entrance 3m from the road edge at a height of between 1.05m and 2m above ground level to an object height of between 1.05m and 2m above ground level in both directions. The visibility splays shall be retained and kept clear from obstructions thereafter.
- b. Where it is necessary to remove hedges, fences, embankments or other obstructions in order to achieve the required visibility splays, they shall be reinstated behind the visibility splays. Any new trees or shrubs shall be planted back from the visibility splays to allow for future growth and some species will require additional set back. All existing planting shall be kept trimmed behind visibility splays.
- c. Where the existing roadside hedge/embankment is to be removed, the roadside verge shall be widened (by grading back or infilling where necessary using appropriate inert material) to include the entire area within the visibility splays, top soiled, and grassed to the satisfaction of the Planning Authority.
- d. The new entrance shall form a bellmouth of 4m radius with edge of new boundary. Recessed entrance shall be of sufficient dimensions to contain a stationary vehicle off the public road. Entrance gates shall open inwards only.
- e. Entrance/access road shall be surfaced with concrete or bitmac from edge of public road for a minimum of 5m and the surface shall be graded back so that its level at 3m from the edge of the carriageway is a minimum of 100mm below road level. Gradient of access road shall be not greater than 1:20 (5%) for the first 5m from boundary and 1:10 (10%) thereafter.
- f. French drain consisting of 300mm diameter concrete pipes backfilled to ground level with suitable granular filter material shall be placed along full site frontage. Drain shall discharge to the nearest appropriate watercourse or drainage pipeline. Suitable gullies shall be placed at start, end and intersection of other drains and at not greater than 40m intervals. Separate application shall be made to Monaghan County Council if this requires a road opening licence.
- g. Cattlegrid/ACO Drain/gullies shall be installed at proposed entrance and constructed in such a manner as to prevent water from the entrance flowing onto the public road. Similarly measures shall be taken to prevent road surface water from flowing onto the entrance. The

- discharge from the above drainage shall be piped to an appropriate drainage pipeline or watercourse.
- h. Provision shall be made within the site for surface water drainage and no surface water shall be allowed flow onto the public roadway. The discharge of surface water from the public road onto the site through road surface drainage and road subsoil drainage shall remain unimpeded.
 - i. No development exempt or otherwise shall be erected over the public sewer, drain or water-main, unless otherwise agreed in writing with the Planning Authority.
 - j. Before any work is commenced on this development a security, by way of a cash deposit, in the sum of €2250, shall be paid to the Planning Authority by the developer to ensure the satisfactory completion of all surface water drainage/boundary work within and abutting the site area, to prevent runoff of surface water onto the public roadway and to ensure that no damage is caused to public roadway and any such damage is repaired satisfactorily. Failure to carry out all entrance works to a standard to the satisfaction of the Planning Authority will result in forfeiture of part or all of the cash security.
7. The development shall be carried out strictly in accordance with the plans and documents submitted on the 25/01/18 as amended on the 05/06/18, except as may otherwise be required in order to comply with the above conditions.

The reasons for the imposition of the above conditions are:

1. In the interest of sustainable development.
2. It is considered appropriate that the developer should contribute towards the expenditure incurred or proposed to be incurred by the Council in the provision of community, recreation and amenity infrastructure and facilities in the area.
3. In the interest of visual amenity.
4. To secure a satisfactory standard of development.
5. In the interest of environmental health.
6. In the interest of traffic/road safety.
7. In the interest of proper planning and sustainable development.
