Castle Homes Ventures in Association with Curo Developments.

Our development partners Curo developments come with a history and an understanding of great buildings and great developments. A residential property development company with a desire to create great buildings and great neighbourhoods.

Formed in 2016, Curo developments has truthfully been around for a lot longer than that. Curo is a private family business with a long history in developing and delivering residential buildings. From humble beginnings that reach back to the 70's and 80's, the love of taking something with potential through to the polished finished article is what Curo is all about.

Curo recognize that we have top quality people to deliver our vision. We therefore only work with the best.

We believe that a market-leading delivery can only be nurtured and based on harnessing the best-in-class, be it our funders, design team, supply chain or our onsite delivery teams.

We put enormous amount of thought into the design and detail of all our development. We build each house, each apartment, each community as if we are going to live or work there ourselves. Examples of what we do...

LOCATION

Kingscourt is a bustling market town with a strong emphasis on community development. There is something for everyone in this family orientated community with an excellent primary school, a well-regarded secondary school and a choice of childcare facilities all within walking distance of your front door. Cnoc Na Ri is the embodiment of a new and exciting opportunity to experience modern urban living in a country setting. Cnoc Na Ri is recasting the boundaries between the two.

A diverse range of recreational and leisure facilities are all within easy access, with a wealth of shops, bars and thriving businesses also catered for. In particular, the new O’Gorman’s Supervalu supermarket is directly across from main entrance to the scheme. Eagerly waiting to cater for your first weekly shop.

Kingscourt is home to a number of long-established market leading business such as Kingspan, Gypsum, Kingscourt Country Manor Brick, O’Reilly Concrete, College Group and Cabra Castle Hotel to name but a few. Large employers bringing prosperity and opportunity to the region and beyond.

PERFECTLY SITUATED

This New homes development, "Cnoc na Ri" meaning "Hill of the King" in Gaelic has a spectacular hilltop location. Offering premium views over the surrounding townscape and countryside. Great attention and consideration has been taken in design, to ensure each home within the site has been positioned to maximize it's prominent hill top position and its uninterrupted sunny orientations.

Dun na Ri Forest

STUNNING LANDSCAPES RIGHT ON YOUR DOORSTEP

Dun na Ri Forrest Park - originally part of the sprawling Cabra Estate, is situated 2km from the town centre and has many beautiful forest walks and trails to be enjoyed. The Kingscourt area is also renowned for its nearby lakes, perfect for the avid angler and outdoors enthusiast. A countryside on your doorstep ready to be enjoyed and explored.

CONNECTED/ROAD AND RAIL SERVICES

Kingscourt is serviced by a comprehensive bus and motorway network. Bus Eireann operate various daily commuter services along with other further private bus firms such as Sillan Tours and Collins Coaches.

Commuter Services are also available, in some cases hourly, to Ardee, Carrickmacross and Slane. Kingscourt to Dublin City Centre takes under 90 minutes by bus.

Further details are available at www.sillan.ie and www.collinscoaches.ie.

The M1 and N2 motorways are accessible only a short drive away making a commute to Dublin's M50 in 50 minutes and Dublin Airport achievable in 60 mins.

Dundalk and Drogheda Train Stations are only 35 and 40 minutes' drive respectively from Kingscourt and both offer intercity rail passenger services to Dublin, Belfast and further afield.

Introduction to your Heat pump. An air source heat pump (ASHP) is a system which transfers heat from outside to inside a building, or vice versa. Under the principles of vapor compression refrigeration, an ASHP uses a refrigerant system involving a compressor and a condenser to absorb heat at one place and release it at another. They can be used as a space heater or cooler and are sometimes called "reverse-cycle air conditioners". In domestic heating use, an ASHP absorbs heat from outside air and releases it inside the building, as hot air, hot water-filled radiators and/or domestic hot water supply. When correctly specified, an ASHP can offer a full central heating solution and domestic hot water up to 80 °C
