

-
- A 3D architectural rendering of a modern, two-story house. The main structure is grey with white accents, including a central two-story section and window frames. The house features several windows, some with white frames and others with black frames. A large, dark green tree with brown branches is positioned in the foreground on the right side. The house is set on a green lawn, and a grey concrete path leads to the entrance. The background is a plain white sky.
